	5 km	15 km
Total EU served heat share (gas-capped: max heat ≤ gas)	58.8% (307 TWh)	84.4% (441 TWh)
LCOH, heat-weighted by served heat (gas-capped)	€55/MWh	€62/MWh
Total EU served heat share (max € savings vs gas €93/MWh)	53.2% (278 TWh)	72.1% (377 TWh)
LCOH, heat-weighted by served heat (max € savings vs gas €93/MWh)	€41/MWh	€42/MWh

Gas-capped uses country gas boiler heat cost (~€78 EU HW avg). Max-savings picks each site's availability (10% steps) maximizing served × (€93 − LCOH); €93 = Eurostat 2025 gas / 0.85 + EUA.
