EU-27 heat pathways

	5 km	15 km
Max heat served — share	**58.8% (307 TWh)**	**84.4% (441 TWh)**
Max heat served — LCOH	€55/MWh	€62/MWh
Max € savings — share	**53.4% (278 TWh)**	**73.9% (377 TWh)**
Max € savings — LCOH	€41/MWh	€42/MWh

Max heat served = highest availability with LCOH ≤ country gas heat price (fuel/η + EUA; EU avg ~€93/MWh).
Max € savings = per-site floor maximizing served × (gas − LCOH) at that EU-average gas heat cost.
